

ZAMO NKOLO ALYSSA LEONIE

SOFTWARE ENGINEERING STUDENT

Douala, Cameroon | zamoalyssa@gmail.com | +237655506031

SUMMARY

Driven Software Engineering student specializing in AI and Backend Development. Proven track record in developing real-time data systems and leading technical initiatives, including founding a Women in STEM club and training 50+ individuals on generative AI tools. Passionate about leveraging machine learning to solve complex infrastructure challenges.

PROFESSIONAL EXPERIENCE

AI Tools Trainer & Consultant (Freelance)

Jan 2025 - Present

- **Empowered 50+ professionals and students** in the effective use of Generative AI tools (LLMs, image generation, and productivity suites) to enhance workflow efficiency by an estimated 30%.
- **Curated and delivered technical workshops** focusing on prompt engineering and the integration of AI APIs into existing software workflows.

Backend Developer Intern, NMD

March 2025 - Sep 2025

- **Architected a Node.js backend** for an RFID security system, improving data processing reliability for real-time tracking.
- **Optimized a MySQL database schema** to handle concurrent RFID data streams, ensuring 100% data persistence during high-traffic periods.
- **Engineered real-time data visualization** modules to provide instant security insights, reducing response latency for system alerts.

PROJECTS

NASA HIGH ALTITUDE BALLOON PROGRAM, NMD

Feb 2024 - Aug 2024

- **Programmed air quality** sensors to capture environmental metrics, utilizing C/C++ for hardware-level data acquisition.
- **Assembled TinyGS** ground station kits to facilitate satellite communication and data packet reception.

SKILLS

- **AI/Data:** Prompt Engineering, Data Science with Python, Kibana, MySQL.
- **Languages:** Python (Advanced), Node.js, Java EE, C/C++, HTML/CSS.
- **Tools:** MS Office, GitHub, SQL Management Tools.

EDUCATION & CERTIFICATIONS

Engineering Cycle

Sep 2022 - Present

Jacky Felly NAFACK Hightech University Institute (JFN HUI)

Certifications

Data Science with Python, Space Mission Design, Orbital Mechanics.

LEADERSHIP & AWARDS

- **Co-founder:** Women In STEM Club Cameroon Association (2025–Present).
- **President:** Entrepreneurship Club of JFN-HUI (2024–2025).
- **Winner:** Group Coding Competition - EWED Yaounde (2025), Group Coding Competition – Girls in ICT Day (2024).
